

Targeting Data Sheets

My CRC - removing the headache from MSDS sheet updating

A service offered to CRC UK/Ambersil end-users and distributors as a means to automate the task of updating Technical Data Sheets (TDS) and Material Safety Data Sheets (MSDS), reducing the burden on staff having to remember, schedule, and undertake this HSE requirement.

By using My CRC, the end-user can ensure 100% compliance automatically when there is a change to the datasheets, whether due to legislative changes such as hazard classifications or amendments to European law. These changes do not affect the product performance or availability, but in a highly regulated industry - up to date compliance is essential to avoid prosecution. The ongoing REACH legislation will affect all processors, distributors, and users of chemicals throughout Europe, however, many people are unaware of what this means. Using My CRC ensures that such changes will be incorporated into the MSDS and TDS, with updates sent automatically.

Offered through the Ambersil website (www.ambersil.com) a simple registration process provides access to the complete Ambersil product range where selection of relevant products takes place - receive only relevant products updates. The system remembers the selection, and will automatically generate an email notification to up to four email addresses when a significant change occurs to either the TDS or MSDS, keeping relevant management and user personnel up to date.

A UNIQUE SERVICE - MAKING COMPLIANCE EASY!

- 24/7 availability on-line
- Removes the potential to 'forget' to check for updates
- Saves time & easy to use
- Legislation changes frequently, do you always know when it has? Receive updates automatically
